

# Near Road Technical Assistance Document

DRAFT: 4/5/2011  
Near-Road Monitoring Technical Assistance Document

## Table of Contents

Executive Summary	1
Section 1: Background	2
Section 2: Near-road Monitoring Technical Assistance Document Objectives	3
Section 3: Core Based Statistical Areas Where Near-road Monitoring is Required	4
Section 4: Recommended Traffic Data and Sources for use in Identifying Candidate Road Segments for Near-road NO <sub>2</sub> Monitoring	6
Section 5: Creating a List of Candidate Road Segments Using Available Traffic Data	9
Section 6: Physical Considerations of Candidate Near-road Monitoring Sites	13
Section 7: Field Reconnaissance of Candidate Road Segments	19
Section 8: Using Exploratory Air Quality Monitoring to Identify Roadway Segments for Near-road Site Selection Evaluation	20
Section 9: Using Air Quality Modeling to Identify Roadway Segments for Near-road Site Selection Evaluation	21
Section 10: Prioritizing Candidate Near-Road Locations for Monitoring Site Selection	22
Section 11: Final Near-road Site Selection	25
Section 12: Multi-pollutant Monitoring at Near-road Monitoring Stations	25
Appendix A: Supporting Information on Uncertainties in Traffic Data and Rationale for Roadway Design Considerations	33
Appendix B: Modeling Guidance	41
Appendix C: Monitoring Guidance	41
Appendix D: Multi-pollutant Considerations	41
Appendix E: Case Studies	41

- Useful
- Focused
- Timely

- Useful
- Focused
- Timely

..and with the pilots

- Iterative
- Collaborative

# TAD and the Pilots

- Ranking of candidate road segments
  - Physical Considerations
  - Collaboration
  - Exploratory Air Monitoring
  - Modeling?
  - Installation
- 
- Multipollutants
